#090 Purok 1 Balansay Street, Barangay Butag

Summary

The mere reason why I choose this field - BSIT - over the others is simply not because I can see myself successful from it nor I can feel that I'm perfectly suited for this one, but because I'm looking forward to what would be our world's future. Considering that, technological advancement continuously and inevitably emerge as it seems. Where in, new discoveries of various technologies awaits ahead of us and choosing this field is the best way to witness it to happen. Frankly speaking, I want to be a huge part of the long process as it comes into life, not just a random person gaining knowledge from it.

Experience

Public Information Officer

COMPUTING SOCIETY ORGANIZATION • Zone 8, Bulan

09/2022 - Present

I am the public face of our organization. It is my duty and responsibility to keep everyone updated, deliver or relay crucial information coming from the learner's council or from our organization to all of the students in our beloved institution. On top of that, it is also my job to create plans and hold press conferences to announce major news or provide essential information in a crisis or for upcoming events.

Traditional & Digital Artist

ARTIST • 090 Purok 1 Balansay Street, Barangay Butag

11/2020 - Present

Since then, art has already played a big role and contributed to my life keeping me on track to attain this present self. A massive chunk of myself that cannot be taken away, became so handy in terms of self-expression may it be emotionally, spiritually, physically, self-beliefs, thoughts, ideas, and so on. Hence, I consider it as a portal towards my inner self. It serves as a friend, my comfort zone, and both defense and coping mechanism during those series of shady darkest times that I have been through.

Officer

SWT • San Isidro, Bulan

04/2018 - 11/2020

Emergency responders at the scene to isolate, contain, and neutralize the incident. Responsible for managing and directing the activities of the various departments that will be involved in emergency response and recovery.
